

# GROUND SEGMENT INFRASTRUCTURES

A CORE ELEMENT OF YOUR SPACE ARCHITECTURE  
PRODUCTS, EQUIPMENT & SERVICES

For over 40 years, **ArianeGroup** has been managing complex projects from the design phase, to infrastructure delivery and subsequent operations.

## CUSTOMER BENEFITS

### SECURE TIMELY DELIVERY AND OPERATION OF GROUND SEGMENT INFRASTRUCTURE ALL OVER THE GLOBE

Agile project management support to secure overall project timeline, tailored to your specifications.

### SUPPORT FROM PRECONSTRUCTION DESIGN TO FINAL COMMISSIONING

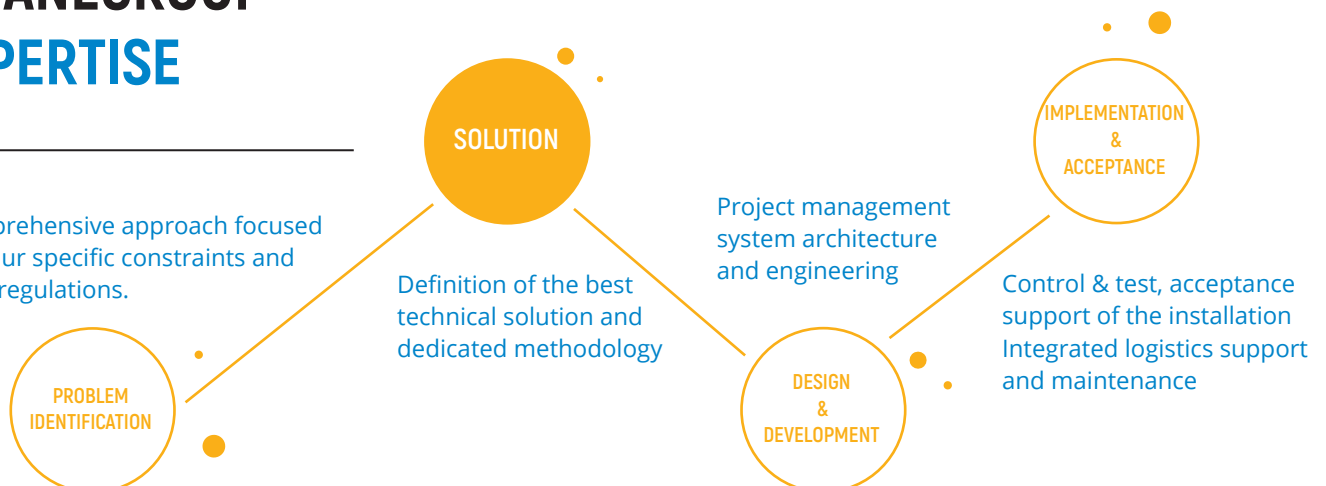

- From conceptualization and design to construction and completion, ArianeGroup supports you throughout the project's lifecycle
- Dedicated methodology and proven automated tools
- Secure digital platform for remote real-time project monitoring (KPIs)
- Test and validation support to enable successful and timely commissioning

### COMPREHENSIVE RISK MANAGEMENT APPROACH IN ACCORDANCE WITH STRINGENT TECHNICAL AND SAFETY SPECIFICATIONS

- Feasibility assessments
- Worldwide site surveys and studies
- End-to-end design to operation costing expertise

## ARIANEGROUP EXPERTISE

Comprehensive approach focused on your specific constraints and local regulations.

## DESIGN AND DELIVER INFRASTRUCTURES FOR SPACE APPLICATIONS

- > Manufacturing Assembly Integration and Tests Centers for satellites
- > Satellite ground segment facilities
- > Remediation & Dismantling facilities

Variety of infrastructures

AIT,  
Ground Segment,  
Defence facility

40 000 m<sup>2</sup>

Successful delivery
